
OUR YOUNG MEN CANDIDATES.

Yes, Guy D. Duncan is a young man. There is not a gray hair in his head. He is a young man who arduously worked and economized to put himself through the law school. He has got through, however, and didn't age much in doing it. He has pushed through several years of practice and was considered old enough by District Attorney Patton to be appointed Deputy District attorney for this important county. He is older than George Rogers or S. S. Downer were when those gentlemen were elected county judge. Has any one heard any complaint of the manner in which those young gentlemen conducted the office? Downer was taken out of a bank book keeper's stall in this city to be made judge, having tried not one-tenth of the cases which Guy D. Duncan has conducted single handed and alone. The "too young" talk is rather tiresome, especially when it is connected with the fact that Mr. Duncan's chief opponent has never, to our knowledge, conducted a case on his own account. Did anyone ever see Frank Secor six feet away from Colonel Byron L. Carr? If so, let us have the date and place. By the way, Secor is none of your gray headed citizens, himself.
